

Dear FCC,I just wanted to let you know, that I and my family oppost NAB's petition 04-160.

We use our XM satellite radio all the time, so much, that we no longer know what "radio" stations are out there.

With XM's "PAID" service, i get what I want without the fuss.

With me traveling all the time, it's nice to check the traffic, and weather, hours before I get there.

Thanks,

Mike Franks

A concerned XM customer
